

## DAS NEWS

- Today, Dual Audio Services is celebrating its **first birthday!** With one year behind us, we hope to improve customer convenience and will now provide a monthly news blitz to keep you in the loop.
- Whether it's **new gear, new deals, or new ways our company is working with the greater Toronto arts community,** DAS News is our way of keeping you up to date.

### ARTS BRIEF

Dual Audio Services was a proud sponsor at this year's

#### **SummerWorks**

**Festival** for the new music series. The company provided the series with an SLS

system consisting of SLS8695 mains and SLS1290 monitors, powered by Camco's Tecton series.

We also offered discounted rentals to all other participating artists.

Sponsoring is an important part of what we do and, as a young company, we understand the value of lending a helping hand.

**Alter Boyz**, an Angel Walk Production at Toronto Centre for the Arts, will open on Friday September 25th with an SLS line-array and Xilica processing from DAS.

As the company has grown over the past year, we have strived to provide appropriate gear, no matter the scale of the production.

### INSTALL NEWS

**Bathurst Street Theatre** (the Randolph Academy's main theatre space) now features a new, full sound system including SLS RLA3 line array, Xilica processing and an M7CL console purchased this past April from Dual Audio Services.

Through install and the continued training of staff, we have stood by our commitment to provide specific to Theatre low profile, high efficiency, professional audio equipment.

### GEAR NEWS

**CAMCO** Known for high quality amplification, is now our preferred amplifier. They have several series, onboard DSP and compliment SLS systems extremely well.

**XILICA** Professional system controllers from a Toronto manufacturer provide high end processing at mid-sized theatre price points.
