Dual Audio Services Corp. Issue 4

June 29th 2010

Community Outreach

Here at Dual Audio, we have a standing commitment to our headquarters community, the Toronto arts community, and the greater audiovisual industry across southern Ontario. Part of this commitment entails building relationships with government, and we are glad to announce we are doing just that.

We would like to thank **MPP Glen Murray** for visiting our shop this past month and supporting young entrepreneurs like ourselves.

As the City continues to host international events, and as our community (Corktown) prepares for **Pan Am Games 2015**, we hope to sustain such relationships and build many more.

MPP Glen Murray is a renowned leader and champion of civil rights. We are deeply honored to have him in our humble shop, and hope we can help him to improve this wonderful city we all share. To learn more about his visit, and our company, go to cybf.ca

Seminar Series Continued

After receiving valuable feedback about our M7 and DiGiCo SD8 seminars, we have decided to adapt our educational series into a permanent fixture of our business.

We will be hosting a **DiGiCo SD9** hands on seminar on **Tuesday June 6th** at our shop, just north of the Distillery on the corner of Sumach and Eastern Ave.

We are also pleased to announce a **Lectrosonic** product seminar, to be held on **Wednesday June 28th**.

Spaces are limited so be sure to contact us by phone at **416.502.0017** or e-mail at info@dualaudioservices.com

Industry Highlights

InfoComm ran from June 9th to 11th in Las Vegas, Nevada, with 32,002 Audio Visual professionals attending from over 90 countries. The conference has grown immensely since its creation in 1939. For additional information on membership and upcoming events, visit www.infocomm.org.

Don't miss the upcoming CITT/ICTS Rendez-vous from August 12-14, 2010 in Halifax, NS. The conference offers seminars, workshops and social events, with more intense certification programs and Master class workshops prior to the conference. For additional information go to <http://citt.org/>
